

Product Description:

The Commercial Mixer Amplifiers have exceptional performance and are engineered and built for installed commercial sound system applications. All modules have comprehensive internal protection circuits to optimise performance. This Commercial series have extremely rugged construction and offer unmatched value in their class.

Key Features and Benefits:

- Rated power 240W
- AC and DC operation
- Special built-in low cut filter
- Phoenix speaker output connector for easy installation
- 4 AUX RCA inputs with inter-lock to avoid cross talk
- Built-in 2 and 4 tone chimes
- Preamp Out and In to insert signal processing equipment
- Individual front panel input master volume controls
- Current limiter, overload, short circuit and thermal protection
- Selectable priority inputs to duck background music when paging
- 4 balanced XLR mic inputs, each with phantom power switch
- Constant voltage 100V, 70V and 50V lines and low impedance 4Ω speaker terminals

System Specifications:

Rated Power	240W
Frequency Response	70Hz-16kHz
Signal to Noise Ratio	>68dB
Treble Control	+10dB
Bass Control	+10dB
Mains Power	240V AC 50Hz
Line RCA Connectors	4
Mic Input Connectors	4 XLR
Net Weight	17.9 kg
Gross Weight	18.5 kg
Dimensions (W x D x H)	484 x 484 x 88mm
Packaging Dimensions 1pc/pack (W x D x H)	540 x 540 x 200mm
